OVERTON’s T-TOP STORAGE BAG

INSTALLATION INSTRUCTIONS

T-Tops and Bimini Tops (Metal frame accessible under the canvas)

NO TOOLS REQUIRED

1. Decide where you want to locate the T-Top Storage Bag
2. Press the release tabs of the 4 side release buckles and release the straps.
3. Slide the 4 male buckles between the canvas and the frame.
4. Insert the 4 male buckles into the corresponding female buckles.
5. Adjust the strap lengths by pulling on the strap ends.
6. To prevent sagging in the center when the bag is loaded: Thread the 2 provided black straps thru the 2 plastic fittings at the center of the top of the bag and connect to the frame.
7. **NOTE:** With this installation method, you do not need the parts listed below. You may remove the snap hooks from the straps if you wish.

Bimini Tops & Hard Tops (installs with no metal frame to wrap straps)

**TOOLS REQUIRED:** DRILL 3/32 or 2 MM Drill Bit Phillips Screw Driver

1. The bimini top must be installed on the boat with the straps pulled tight before installing the T-Top Storage Bag.
2. Decide where you want to locate the T-Top Storage Bag. For best results, the center of the bag should be directly underneath the center support of the frame. The bag will be suspended from the provided snap hooks slipped into 4 padeyes (2 front and 2 rear).
3. Once the location is determined for the padeyes, mark the screw locations and drill 3/32” or 2mm pilot holes thru both sides of the frame. Screw the padeyes into place
4. Press the release tabs of the 2” wide strap. Install one snap hook with retailer onto the 2” wide strap. Reinstall side release buckle. Repeat with the other 3 straps. Clip snap hooks onto the padeyes, then clip the side release buckles together.
5. Adjust the strap length by pulling one the strap ends.
6. Connect the 2 provided plastic rings at the center top of the T-Top Storage Bag to the frame with:
   a. Qty 2 – 10” long straps (provided if there is access to the frame).
   b. Qty 2 – large snap hooks provided: Screw 2 padeyes to the center of the frame first, to receive the large snap hooks.

**PARTS (pictured from left to right)**
