HCSSCRNG6

Thank you for purchasing the **Hike Crew Screen Gazebo**. This User Guide is intended to provide you with guidelines to ensure that operation of this product is safe and does not pose risk to the user. Any use that does not conform to the guidelines described in this User Guide may void the limited warranty.

Please read all directions before using the product and retain this guide for reference.

This product is intended for domestic use only. It is not intended for commercial use.

This product is covered by a limited one-year warranty. Coverage is subject to limits and exclusions. See warranty for details.

SAFETY PRECAUTIONS

WARNING! Please read and understand all safety precautions and instructions before setting up this tent. Keep this manual for future reference.

- **DISCLAIMER: This tent is flame-resistant, but is NOT fireproof. The fabric will burn if left in contact with an open flame or heat source. Contact with any foreign substances to the tent fabric may render the flame-resistant properties ineffective.**
- Keep heat sources (candles, matches, and etc.) away from this tent.
- Don't build campfires near the tent. Always extinguish campfires before leaving campsite or retiring into the tent.
- Do not cook inside of gazebo.
- Never use open flame devices in or near this tent.
- Do not refuel lamps, heaters, or stoves inside of tent.
- Always take extreme caution and monitor lanterns and heaters inside of the tent.
- Do not smoke in the gazebo.
- Do not store flammable liquids inside the tent.
- Take down the gazebo when not in use to avoid unnecessary damage from outdoor elements.
- Never store tent when wet. Always allow gazebo to dry in order to prevent mildew and mold.
- Do not leave gazebo outdoors when not in use.
- Never allow children to enter and play in gazebo unattended.

ASSEMBLY INSTRUCTIONS

Gazebo Setup

1. Locate a level, flat surface that is clear of debris to prevent rips or cuts while setting up your tent.
2. Lay the tent flat on the cleared-out area. Then, check that there is no material twisting or overlapping.

3. Grasp the webbing loop sewn into the center of the top panel and pull the loop outward.

4. Continue around the tent pulling the loops on the side wall panels outward. Pull until side wall panels are popped out. (The fiberglass poles should pop out into place holding up the gazebo.)

5. With the gazebo now freestanding, locate the zippered door, and walk into the tent.

6. Once inside the gazebo, place a hand on the top panel and push up until roof pops into place.
7. Move outside and anchor your gazebo down at each corner by tying the ropes down to the pegs (or stakes) provided.

8. Place pegs firmly into the ground and hammer down the peg to keep gazebo stable.

Gazebo Takedown

1. Remove pegs and untie ropes on the pegs.
2. Move around the tent and push side wall panels inward so that the gazebo collapses.

3. Push the top panel inward. The tent should now be back on the ground in its flattened state.

4. Gather the corners of the tent and fold the corners together.

5. Take the folded tent and insert it into carry bag. Place the pegs and ropes in bag as well.

NOTE: Do not force the tent when folding. If tent is hard to fold, check for overlaps and entanglements in the tent.

MAINTENANCE/STORAGE INSTRUCTIONS

- Take down the tent when not in use. Do not leave tent unattended.
- Never store the tent when it is wet. Always let the tent dry before storing it.
- Use extra tie-downs during excessive winds.
- Clean and wipe down the tent before storing it for long periods of time.
- Store the tent in a cool, dry area.
