

HOW TO SIZE YOUR

RockGARD

1

Choose Your Boat Style:

- V-Front Design - *Most common style sold!*
- Blunt Front design - *Eliminates the gap between the two front panels for ultimate protection*
- Pickle Fork - *Ideal for double bowed wakeboard and ski boats*
- Personal Watercraft (PWC)
- Pontoon Boat

2

Measure from trailer tongue to bow height of the boat while on the trailer.

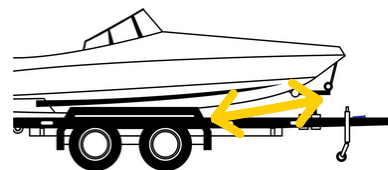

- *Determines if you need Small, Medium, Large, or MAXX*

3

Measure the distance from the centre post to the trailer fender.

- *Determines if you need the STANDARD or XL length*

CENTRE POST HEIGHT X LENGTH

- | | |
|---------------------------|---------------------------------------|
| • PWC - 27" x 6.5' | • Picklefork - 35" x 12' |
| • Small- 27" x 7.5' | • Medium Blunt Front - 33" x 9' |
| • Medium - 33" x 9' | • Medium XL Blunt Front - 33" x 11.5' |
| • Medium XL - 33" x 11.5' | • Large Blunt Front- 39" x 10' |
| • Large - 39" x 10' | • Large XL Blunt Front - 39" x 12.5' |
| • Large XL - 39" x 12.5' | • Maxx Blunt Front - 47" x 11' |
| • Maxx - 47" x 11' | • Maxx XL Blunt Front - 47" x 13.5' |
| • Maxx XL - 47" x 13' | |

4

Measure trailer frame size:

- STANDARD Hardware Kit fits 3"-5" frames (*Included with ALL RockGARDS*)
- UPGRADED Hardware Kit fits 6"-8" frames (*Needs to be ordered seperately*)
