

SET UP INSTRUCTION

⚠ WARNING: The tent opens forcefully

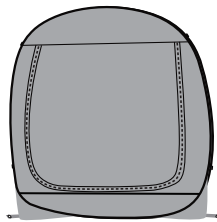

Be cautious when opening by making sure you release the secured webbing slowly away from FACE, BODY, and others.

①

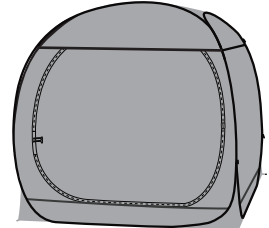

Slide the black band off.
(Store the band somewhere you will remember. You will need the band when folding the tent later).

②

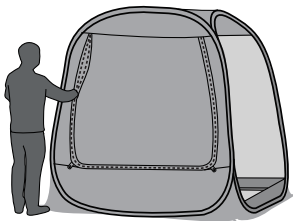

③

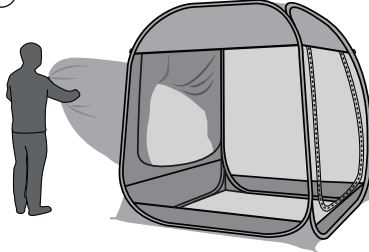

Open each panel and spread each side equally for best stability.

④

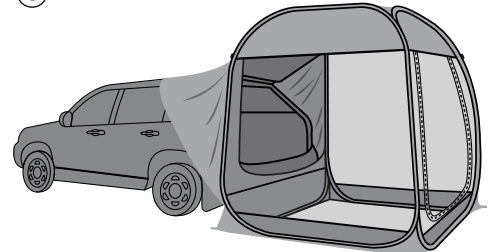

Unzip the back door.

⑤

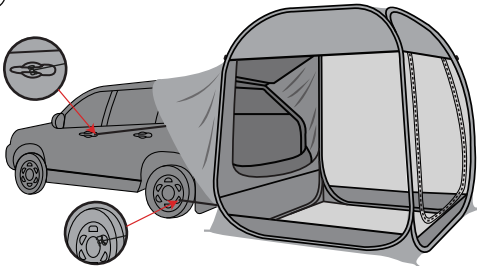

Pull the fabric out.

⑥

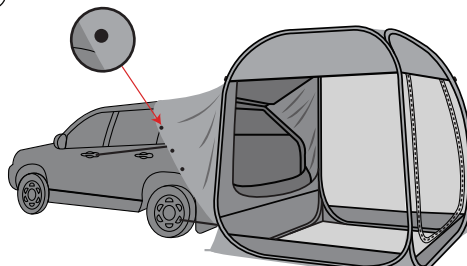

Pull the fabric cover the back of car.

⑦

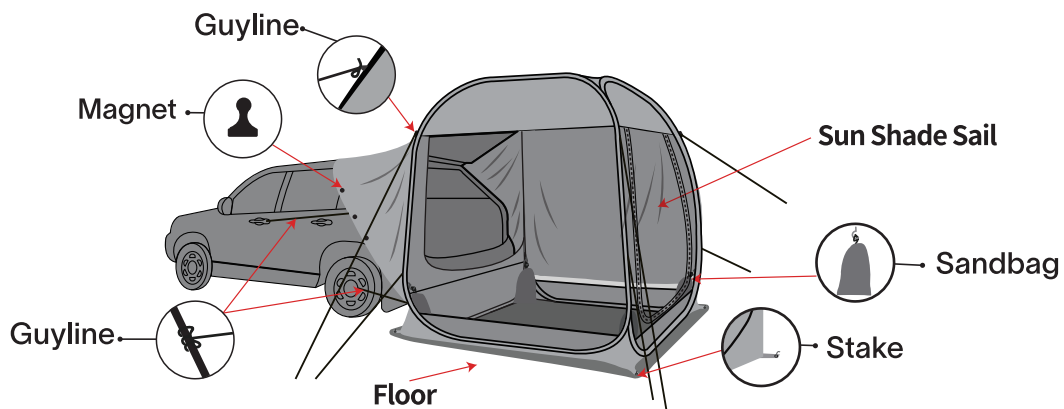

Use guylines to fix the tent with the car.

⑧

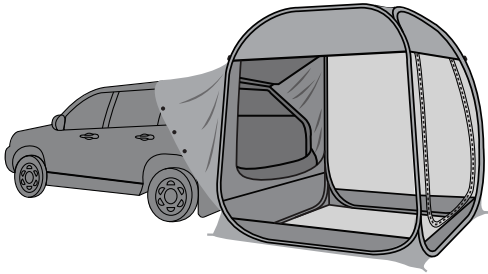

Use magnets to attach the fabric closely with the car.

Stabilize tent with metal stakes in each corner through the metal rings. You need sandbags and guylines to get more stability and windproof. Additional floor for clean and a sun shade sail for UV protection.
